ATHLETIC ABILITY						SECTION GRADE:	8.0
Exceptional playing speed and quickness. Quick change of direction in routes. Very fluid in motion (not stiff). Defenders will give him space pre-snap to respect his playing speed and, therefore, will not give up the deep play. Or, they'll take their chance on the bump-and-run. In that regard, Flowers' lack of size does not help him strength-wise, but he can get feisty. He has some success in locking up the defender but just inconsistent.							
HANDS / PASS CATCHING TECHNIQUE						SECTION GRADE:	7.5
Adequate hands and catching ability. Does well catching away from his body when a defender is on him. In the 4 games I observed, Flowers made 2 diving catches. I would like to see a slightly bigger catch radius on him. Had 2 drops in the 4 games I observed. One was tough trying to get the pass while staying in bounds and holding off a defender. The other one just simply dropped because he looked up before completing the catch. He also caught quite a few balls into the body. It was just convenient for him.							
RELEASE OFF LOS / ROUTE RUNNING						SECTION GRADE:	7.0
Sometimes has trouble shaking off a defender when he gets pressed on the line. He can outrun everyone, though. Quick change of direction on routes. He will always get separation on defenders and always seems to find a way to get open.							
RUN AFTER CATCH / BALL SECURITY						SECTION GRADE:	8.5
Did not fumble the ball in the games I observed. He's quick to tuck the ball away immediately after the catch. Flowers is outstanding after the catch. Just like his route running, he's fluid and elusive. Will also fight for an extra yard or two after contact.							
COMPETITIVENESS / BLOCKING						SECTION GRADE:	7.5
Flowers' lack of size doesn't help him in his category. If it's a running play and it's on his opposite side, he won't really do anything blocking-wise. He'll just try to draw the defense away from the play. If it's a running play in the middle and Flowers is lined up tight to the offensive line, he'll try to hook inside to help with the blocking. If it's a running play to his side, Flowers will support with blocking. His size gives some limitations, but he does have some success locking up defenders. Just inconsistent at times.							
LEADERSHIP / INTANGIBLES / CHARACTER / FOOTBALL INTELLIGENCE						SECTION GRADE:	7.0
Flowers doesn't really carry himself as a team leader. He does well, though, in making fine details. For example, on a play that looked like a run on his opposite side, Flowers slowed down as he came off the line of scrimmage. But then, as the "run play" turned into play action and rollout pass, Flowers quickly sped up and ran to the flat as his route. Flowers also finds ways to get to soft spots in the zone, and he does well at selling his route, especially for screen passes.

STRONG POINTS				WEAKNESSES			
Top of the line playing speed and quickness. Can change directions quickly and very fluid in his movement. Also quick to get off the line of scrimmage. Great with the ball. Tucks it away, very elusive, and can fight for extra yards. Sufficient hands. He's a playmaker. His size limits his strength, but he can be physical.				Inconsistent when being pressed at the line of scrimmage. Though there wasn't much opportunity to demonstrate, it would be nice to see if Flowers can make a bigger catch radius. A little undersized at 5' 9" and 175 lbs.			
SUMMARY / BOTTOM LINE							
A true playmaker with outstanding quickness and playing speed. Always finds a way to get separation and get open. A little inconsistent in getting off press coverage. Also, I would like to see a slightly better catch radius out of him, but there weren't many opportunities to demonstrate this. Flowers is outstanding when he has the ball in his hands. He runs downhill, protects the ball, is very elusive, and fights for extra yards after contact. Flowers' lack of size limits his toughness and how physical he is, but he is adequate in these areas. In blocking, he is good but inconsistent at locking the defender.
